1. Qualitative Information

(1) Analysis of business performance

While affected by the economic downturn in Emerging countries, as a result of the Japanese companies' positive earnings and the government-led reflation measures, the nation's economy during the first six months of fiscal 2015 (referred to as the "current term") continues its progress. On the other hand, against the backdrop of a sluggish growth in individual consumption and a pressure of labor supply and demand, the nation's economic prospect and business environment remains unclear.

In the automobile industry, Japanese automakers' new vehicle sales in the domestic market turned out to be 92.5% of that in the corresponding quarter from the previous year (hereinafter referred as "year-on-year") (Japan Automobile Manufacturers Association's statistical data), being affected by the hike in vehicle taxes on mini-cars. On the other hand, with the yen continuing to be weak the situation has remained favorable to exports to overseas markets, recording a year-on-year increase.

The used car market is in a downturn due to a weakening in consumer confidence, but in the latest quarter showed signs of recovery on a year-on-year basis. However, the export of used cars is weakening,

Under these circumstances, our Group promoted strategic sales activities matching the changes in the market environment in each of its segments, created higher added-value services by strengthening the group synergy of its three businesses, and worked to strengthen cost reduction and other profit administration systems.

Our Group's financial results for the first six-month of fiscal 2015 recorded sales of 38,611 million yen (109.8% year-on-year) and operating income of 2,504 million yen (233.2% year-on-year), thus posting year-on-year increase in sales and income. Upon taking non-operating gains and losses into account, ordinary income was 2,676 million yen (227.9% year-on-year), and net income attributable to owners of parent company was 1,638 million yen (247.9% year-on-year).

【No. of Motor Vehicles Related to Domestic Distribution】			Unit : Units	
Domestic Sales		July 2014-December 2014	July 2015-December 2015	Year-on-year Change (%)

Deregistered vehicles	*3	119,826	103,300	86.2%
Exports				
Domestic automakers' new vehicles	*1	2,297,764	2,400,441	104.5%
Used passenger cars	*5	718,992	699,628	97.3%

*1: Calculated using the Japan Automobile Manufacturers Association's statistics

*2: Calculated using the Japan Automobile Importers Association's statistics

*3: Calculated using the Japan Automobile Dealers Association's statistics

*4: Calculated using the Japan Light Motor Vehicle and Motorcycle Association's statistics

*5: Calculated using the number of deregistered used cars for export listed in the Japan Automobile Dealers Association's statistics

① Automobile-related Business

In this business segment, domestic sales of Nissan Motor Company, our major customer, was affected by a downturn in consumer confidence, and posted sales of 262,189 units (92.6% year-on-year) of new vehicles in

Japan (Japan Automobile Manufacturers Association's statistical data). Due to the above reasons, sales of Nissan's new cars transportation decreased. However, efforts were made to increase used car exports and transportation of non-Nissan new cars and as a result, the automobile-related business posted an overall increase year on year.

As a result, this segment's sales rose to 29,520 million yen (109.5% year-on-year) and profit was 2,797 million yen (201.6% year-on-year).

② Human Resources Business

In this segment, while companies seeking human resources are on the increase as the nation's economy is on a recovery trend, our corporate clients continue to be very strict in terms of dispatch and contract work fees. Under these circumstances, we were able to increase sales in this segment, thanks to steady efforts to develop new sales regions and customers through strong sales activities and enhanced sales operations in the employee dispatch business.

As a result, this segment posted sales of 6,659 million yen (111.6% year on year) but due to increase in recruitment costs, etc., profits in this segment were 235 million yen (96.4% year-on-year).

③ General Cargo Transportation Business

Sales of 2,682 million yen (109.1% year-on-year) was recorded in this business segment, the growth being attributable to steady movement in the port cargo handling and other businesses. As a result of improvements in the business efficiency from the cost aspect, this segment posted profit of 484 million yen (147.7% year-on-year).

Incidentally, concerning unclassifiable group-wide expenses (expenses concerning the company's administrative departments) and the amortization of goodwill, etc., which are not included in the above profit and loss by segment, they are recognized as "Adjustments" items as listed in "Segment Information" in "3. "Consolidated Financial Statements" and amounted to 1,012 million yen.

(2) Analysis of the financial condition

① Assets, Liabilities and Net Assets

(Assets)

Compared to the end of the previous term, current assets decreased by 577 million yen (3.4%) to 16,312 million yen. This is chiefly due, despite the increase of notes and accounts receivable – trade by 419 million yen, to the decrease of cash and deposits by 723 million yen.

Compared to the end of the previous term, fixed assets decreased by 3 million yen (0.0%) to 18,251 million yen. This is chiefly due, despite the increase of buildings and structures by 94 million yen, to the decrease of goodwill by 173 million yen.

As a result of the foregoing, compared to the end of the previous term, total assets decreased by 581 million yen (1.7%) to 34,564 million yen.

(Liabilities)

Compared to the end of the previous term, current liabilities decreased by 763 million yen (6.9%) to 10,342 million yen. This is due to the decrease of notes and accounts payable by 121 million yen and accrued consumption taxes by 177 million yen.

Compared to the end of the previous term, long-term liabilities decreased by 565 million yen (7.6%) to 6,868 million yen. This is chiefly due to the decrease of long-term loans payable by 522 million yen and provision for retirement benefits by 92 million yen.

As a result of the foregoing, compared to the end of the previous term, total liabilities decreased by 1,328 million yen (7.2%) to 17,211 million yen.

(Net Assets)

Compared to the end of the previous term, net assets increased by 746 million yen (4.5%) to 17,352 million yen.

This is chiefly due, despite the increase of treasury stock by 701 million yen, to the increase of retained earnings by 1,305 million yen.

② Cash Flow Situation

At the end of the current term, cash and cash equivalents (hereinafter referred to as “Funds”) decreased by 671 million yen compared to the end of the previous term, to 5,185 million yen.

The respective cash flow situation in the current term and their causes are as follows.

(Cash flow from operating activities)

Funds provided by operating activities were 1,170 million yen (income in the corresponding quarter from the previous year was 191 million yen).

Income was provided mainly by 2,671 million yen in income before income taxes, 473 million yen in depreciation, and 173 million yen in amortization of goodwill. Payments were made mainly as 901 million yen in income taxes paid, increase of 419 million yen in notes and accounts receivable-trade, and decrease of 177 million yen in accrued consumption taxes.

(Cash flow from investment activities)

Funds used in investment activities were 291 million yen (payments in the corresponding quarter from the previous year were 848 million yen).

Income was provided mainly by 52 million yen as proceeds from withdrawals from time deposits. Payments were made mainly as 268 million yen in payments for purchases of property, plant and equipment, and 90 million yen in purchase of intangible assets.

(Cash flow from financing activities)

Funds used in financing activities were 1,549 million yen (income in the corresponding quarter from the previous year was 466 million yen).

Income was provided mainly by 110 million yen as proceeds from long-term loans payable. Payments were made mainly as 721 million yen in repayment of long-term loans payable, 409 million yen for purchase of treasury stock, and 333 million yen in cash dividends paid.

(3) Forecast for the next consolidated fiscal year

The financial forecasts for fiscal year ending June 30, 2016, published on August 7, 2015, have been revised as set forth in the “Revisions in Financial Forecasts, Determination of Dividend of Surplus (Interim Dividend) and Revisions in Year-end Dividend Projection” disclosed today (February 12, 2016).

2. Summary Information (Notes)

- (1) Changes in important subsidiaries during period: N/A
- (2) Application of particular accounting methods for quarterly consolidated financial statements: N/A
- (3) Changes in accounting policies, accounting estimates and restatement of corrections

(Application of the ASBJ Statement)

The Company has applied “Revised Accounting Standard for Business Combinations (ASBJ Statement No. 21, September 13, 2013) (hereinafter referred to as the “Business Combinations Accounting Standard”), “Revised Accounting Standard for Consolidated Financial Statements (ASBJ Statement No. 22, September 13, 2013) hereinafter referred to as the “Consolidation Accounting Standard”), “Revised Accounting Standard for Business Divestitures”

(ASBJ Statement No. 7, September 13, 2013) (hereinafter referred to as the “Business Divestitures Accounting Standard”) and other standards from the current term. Accordingly, the accounting methods have been changed to record the difference arising from changes in equity in subsidiaries which the Company continues to control as capital surplus, and to record business acquisition costs as expenses for the fiscal year in which incurred. In addition, regarding business combinations occurring on or after the start of the current term, the accounting method has been changed to retroactively reflect adjustments to the amount allocated to acquisition costs arising from the finalization of the provisional accounting treatment on the consolidated financial statements of the period in which the business combination occurs. Furthermore, presentation of Net income has been changed. In order to reflect the changes in presentation of financial statements, reclassification was made accordingly in the quarterly consolidated financial statements for the three months ended September 30, 2014 and the consolidated financial statements for the previous fiscal year.

The Business Combinations Accounting Standard and other standards have been applied from the start of the current term in accordance with the transitional treatment set forth in Article 58-2 (4) of the Business Combinations Accounting Standard, Article 44-5 (4) of the Consolidation Accounting Standard and Article 57-4 (4) of the Business Divestitures Accounting Standard. Incidentally, there is no effect on the profits and losses in the quarterly consolidated financial statements for the current term and on the capital surplus at the end of the current accounting period.

(4) Additional Information

(Abolition of Retirement Benefits for Directors)

At the ordinary general meeting of shareholders convened on September 29, 2015, a resolution was passed to make final payment pursuant to abolition of the directorate retirement benefits system. Pursuant to the foregoing, the Company reversed the full amount of “Provision for retirement benefits for director” and included the outstanding balance under “Others” of Long-term liabilities as long-term accounts payable in order to continue to be prepared to pay retirement benefits for directors.

Incidentally, in some of the consolidated subsidiaries, in order to prepare for payment of retirement benefits to directors, the amounts to be paid based on internal regulations have been recognized under “Provision for retirement benefits for directors”.

(Introduction of a Performance-based Stock Compensation Program)

At the ordinary general meeting of shareholders convened on September 29, 2015, a resolution was passed to newly introduce a new stock compensation program ‘Board Benefit Trust (BBT)’ (hereinafter referred to as the “Program”) for the Company’s directors, auditors and executive officers (excluding those serving concurrently as officers of the Company’s parent company, outside directors and outside auditors) (hereinafter referred to as the “Directors and Others”). The purpose of the Program is to make clearer the link between compensation of the Directors and Others and the Company’s performance and stock prices, and by having the Directors and Others share not only the merits of an increase in stock prices but the risks of a drop in stock prices, increase the awareness of the Directors and Others of their contribution to improving medium to long-term performance and increasing corporate value.

This is a performance-based stock compensation program whereby shares of the Company are acquired by the Trust using money contributed as funds by the Company, and distributed by the Trust in accordance with the Rules on Distributions of Board Benefits based on points given to each of the Directors and Others in view of their positions and performance. Incidentally, the shares of the Company shall be distributed to the Directors and Others as a general rule when they leave their positions.

Shares owned by the Trust are stated as treasury shares under “Net Assets” of the Consolidated Balance Sheet of the current term by book value in the trust. The book value and number of these treasury shares at the end of the current term was 499 million yen and 357,100 stocks.
